J. W. DAWSON & BRO

We have just received a large invoice of NEW SPRING GOODS, and our store is fuller and more complete than ever. Our buyer went to the city in person and, by going early, got advantage of the advancing price on all goods which is daily being evidenced to the consumer.

No Merchant

owns his trade. No sensible person will, in these days, buy goods of anybody merely upon sentiment or past experience. The demand is that the merchant shall be up-to-date at every point. Keen public sense comprehends the best and remarks it; we are up-to-date in prices, qualities and etc.

Every branch of our establishment is complete, and we positively will maintain our present position.

The Mt. Sterling, Clay City & Spoutspring Telephone has made arrangements with the Western Union Telegraph Co. to handle all the messages to and from all points reached by that line at reasonable charges. This line solicits your business.

Louis Schueler, the Hall Safe Company's expert, was here Tuesday to open the damaged time lock safe in the Clay City National bank caused by the robbers heavy explosives used Saturday night. The money was all right, except a few 20-dollar gold pieces that was battered by the explosion.

Bank Robbers Bold Attempt.

About midnight Saturday, the Clay City National Bank was broken into by a gang of expert cracksmen and almost demolished the vault, inner safe and the furniture. The robbers used nitro glycerine or dynamite. They first blew open the big steel door and then put a shot in the time lock safe and blew off three layers of that safe, and they were getting ready to put in another shot when they were discovered by the night watchman at the mill, John Hawkenhemer, and it was due to his bravery that the robbers were scared away. He gave the alarm and the robbers left in a hurry. A lot of fuse, dynamite caps and a lot of tools they had taken from Mr. Brown's blacksmith shop and the R. R. Co. shops were left in the bank. The robbers did not get a cent for their trouble. The damage of the vault and time lock safe will be about \$1,000. It will take about two weeks to repair the damage and get a new safe, but the business at the bank will go right along just as though nothing had happened. One of the men supposed to be in the gang was arrested in Mt. Sterling early Sunday morning and put in jail. He had a lot of money and a big pistol on his person, and he could not give a satisfactory account of himself. The officers of the bank met early Sunday morning and offered a reward of \$500 for the arrest and conviction of any one connected with the robbery, and we hope they will be apprehended.

It has been estimated that a horse can draw on the worst kind of a road about four times as much as he can carry on his back. On a good macadamized road he can pull ten times as much, and on a paved road twenty-five times as much and on a street railway fifty-eight times as much as he can carry on his back.

In Rochester, N. Y., there are \$3,500,000 spent in the saloons, and the breweries of that city has \$6,455,000 capital invested. They employ 434 hands at \$381,000 in wages. The men's clothing industry with \$2,245,000 in capital employs 3,132 at \$1,561,000, while the boot and shoe industry with \$3,281,000 invested employs 4,868 hands and pays \$2,031,000 in wages. The picture frame factories of this same city with \$200,000 capital invested employ more hands than the breweries. Yet there are some people who say the liquor business affords more employment to the laboring class. When the same investment that gives employment to 434 in the breweries of Rochester would give employment to 9,736 hands if it were invested in making boots and shoes.

There are 50 million herd of cattle in the United States, of which number from 15 to 20 million are dairy cows. If every one of our readers would get Biggle Cow Book, published at 50 cents by the Wilmer Atkinson Co., Philadelphia, they could greatly increase the product from every cow in their herd.

Important Questions.

Do you realize the meaning of the rapid growth of cities, and the dangers that are gathering about them?

Have you solved the monopoly problem?

Do you know how fast the movement for public ownership of public utilities, as water, gas and electric works, street railways, etc., is growing in this day, and do you understand the reasons for the movement?

Do you know what cities and towns in the United States now own and operate their own electric light plants, gas plants, water works, etc., and how much they save thereby?

Do you know to what extent cities and towns are under bondage to state legislatures? Do you know to what extent the people in cities and towns are under bondage to city councils?

Do you know the results of the use of the initiative and referendum in the United States and in Switzerland?

Do you understand those methods and the reasons of the growing demand for the extension of their use?

Do you know the best remedies for corruption in elections? Do you know England's experience in this respect?

Do you understand proportional representation?

Do you know what is being done with the automatic ballot in some of our cities?

Do you want the text of the most progressive laws in the various states concerning local government, home-rule charters for cities, direct legislation amendments, public ownership laws, etc.; also ideal forms for such laws?

Would you like 600 pages of facts and arguments on some of the leading questions of the day, thoroughly indexed so that you can turn at once to any point you wish—overcapitalization of street railways in New York, Broadway franchise steal, Bay State gas frauds, Standard oil atrocities, cost of electric light before and after public ownership, Haverhill gas case, Sixteen reasons for the economy of public ownership, savings of Federal Government by putting its own telephones, profits of street railways, gas companies, etc., etc.?

Do you want a rich mine of facts and arguments relating to the monopoly, public ownership of public utilities, direct legislation, and other vital questions of our time?

Do you want these facts so arranged, classified analytically indexed, that you can get up a brilliant speech or effective newspaper article in half an hour on any phase of the chief municipal questions of the age?

All these questions are answered and the entire subject of local self-government is treated as never before, in the book called *The City for the People*, prepared by a well-known authority on the principal subjects of the book. Price only 50c. (should be double this amount). Bound in cloth. \$1. Address "Equity Series," 1520 Chestnut street, Philadelphia, Pa.

A silly man dreamed for several nights that he was a banner inscribed, "P. C." He construed it to mean a command to "Preach Christ," and accordingly presented himself to the elders to be advertised. He was asked to outline a sermon, and at the close he was gently reminded that "P. C." could also be interpreted "Plow Corn." He did not preach, and must have given up the idea in disgust.

RELIGIOUS NOTES.

BY REV. C. W. CLAY.

Kansas, Iowa and Maine have adopted absolute prohibition.

"What can I do for Christ?" Go where He is not, and take Him with you.

The total amount given to Foreign missions in the United States last year was \$5,158,114.

In a dozen Southern states there are 2,537,566 Baptists; 2,227,906 Methodists and 1,129,039 members of other churches.

Not only the stores, but also barber shops are closed on Sundays, and the sale of tobacco to minors under 16 years old is prohibited in the District of Columbia.

Rev. C. F. Reid, of Winchester, returned missionary from China and Korea, will attend the Educational Conference of Missions in New York April 21st to May 1st.

A Mormon preacher at Jacksonville, Fla., who asserted that Southern women have no virtue, was promptly knocked down by the nearest man to him and the meeting broke up at once in great disorder.

It is often said whiskey is alright in its place, but its place is not in the stomach of a young man who intends to marry, and the woman who marries him will regret it as long as she lives.

The widow of Rev. Sam Kelly, deceased, a member of the Kentucky Conference, died at the home of her daughter in Paris March 16th. She was the mother of the Rev. G. C. Kelly, of Tulip St. Methodist church, Nashville, Tennessee.

Prohibition in Kansas may be a failure, but those applicants examined for census bureau from that state, secured the best average of any state in the Union. Sixteen counties in this state have no need of a poor farm in their bounds, and at Clay, Kan., a case has not been docketed in the Police Court in three months.

W. E. Stanley, Governor of Kansas, says: "I have often said and say yet that prohibition at its worst is better than high license at its best." Three ex-Governors of Kansas say that prohibition has made the liquor traffic disreputable, and the users of liquor unpopular.

State Secretary Wm. Donner, of the Colorado Y. M. C. A. desires to establish a home near Denver where consumptives that are unable to pay such heavy expenses as are usually necessary at the boarding houses and hospitals may go and with light labor provide for common necessities.

The Mormon church gives one member out of every ninety-two to the foreign work, and the ninety-one support the one with zeal that demonstrates that they are not playing at missions. They send five ministers abroad for every one kept at home, and gives an average of \$1.25 per member for missions.

Three Mexican Indian charcoal burners, clad in white cotton shirts and pantaloons, denied themselves of foot gear in order to give \$25 each for the purpose of building a new church at Pachuca, Mex. Are the days of self-sacrifice and heroism past? The Methodist church has expended a million dollars for mission work in Mexico since 1875.

In Pittsburg last year, there were 77,141 arrests for 106 different offenses. Of these, over 42,000 were for the one offense of drunkenness. Boston, which has been a high license city for over 200 years, the number of people arrested for drunkenness averaged 81 per day, and the number so arrested during the year was equal to 6% of the entire population of the city.

Broken-down Women

weary from pain and the torture of over-taxed nerves, it is but natural that you should be low-spirited and dejected. Worn-out by the care, the worry and the long suffering from weaknesses that have baffled the best efforts of your family doctor, it is no wonder you have become discouraged, and think there is nothing left for you but suffering and misery. Do not give up all hope, do not lose all courage. Remember Dr. Miles' Nervine has helped thousands of despondent women to regain their lost health and failing strength. It quiets the irritated nerves, rests the weary brain and drives worry and care away. It gives zest to the failing appetite, invigorates the digestion and adds new strength and vigor to the whole system. Don't forget the name.

DR. MILES' Nervine.

"Change of life left me a total wreck and I suffered nervousness, rheumatism, heart trouble and dropsy. When I commenced taking Dr. Miles' Nervine last December I was thought to be in the last stages of nervous prostration and was scarcely able to move about the house. I began to improve almost from the first dose, and in a few months I was enjoying better health than I had before in fifteen years. I am now able to walk ten or a dozen blocks without feeling in the least fatigued, and I sleep the day I first heard of Dr. Miles' Nervine."

The Best in the World.

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for coughs and colds.—The Herald, Andersonville, Ind. For sale by J. W. Dawson & Bro.

General Joe Wheeler favors a territorial form of government in the Philippines. He says the islands should be divided into three or four different territories because of the antagonisms existing between the different people. He says that some of the tribes have been our devoted friends, and that they are already fitted for self-government in local affairs, and that under territorial governors, appointed by the United States, he is sure they would prosper.

Remarkable Cure of Rheumatism.

Kena, Jackson Co., W. Va. About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. B.
